We have honor to work with Global/International Organizations like;

European Union, Kingdom of Netherland, German Council, Asian Development Bank, International Labour Organization, World Food Program, Pakistan Poverty Alleviation Fund (PPAF), World Bank, GIZ (International Zusammenarbeit GmbH) etc.

Introduction to ISO 27001:

The standard provides set of best management practices for protection of information residing in an organization whether information belongs to the organization itself or its clients. Although the standard is commonly related to Information Technology Sector, it still applies to any business and non-profit organization that understands the sensitivity of its information.

Benefits of Implementing ISO 27001:

- ✓ Implementation of risk controls not only prevents threat occurrences but also ensures reduction of re-work
- ✓ Identification and improvement of system vulnerabilities
- ✓ Development of strong Human Resource Management System
- ✓ Incident Management Plans and Better Emergency Controls
