### Introduction to Oeko-Tex

Oeko-Tex is a product certification for Textile Products and has four distant categories or classes industry which includes:

- **Class I: Products for babies** are all articles, basic materials and accessories which are provided for the production of articles for babies and children up to the age of 36 months with the exception of leather clothing.
- **Class II: Articles with direct contact to skin** are those which are worn with a large part of their surface in direct contact with the skin (e.g. blouses, shirts, underwear, etc.).
- **Class III: Articles without direct contact to skin** are those which are worn with only a little part of their surface in direct contact with the skin (e.g. stuffing's, linings, etc.).
- **Class IV: Decoration material** in the context of this standard are all articles including initial products and accessories which are used for decoration such as table cloths, wall coverings, furnishing fabrics and curtains, upholstery fabrics, floor coverings and mattresses.
