Introduction to ISO 9001:2015:

ISO 9001:2015 have a distinctive structure, which will be used in all standards sharing the same basic requirements to increase adoption of all ISO standards. Risk based thinking is an essential part of the new standard, expecting organizations to identify and address the risks and opportunities that could help to provide compliant products and services. In new standard, the service has received its own identity, clarifying that ISO 9001:2015 applies not only to manufacturers but also to all types of service providers.

Benefits of Implementing ISO 9001:2015:

- ✓ Greater emphasis on leadership engagement
- ✓ Helps address organizational risks and opportunities in a structured manner
- ✓ Better utilization of available resources
