ISO 17025 | ISO 15189 ISO 9001 | ISO 14001 ISO 27001 | ISO 20000 BS 25999 | ISO 22000 HACCP | HALAL OHSAS 18001 | SA 8000

We have more than 850 corporate clients across Pakistan and provided training services to 8000 Professionals belonging to Private, Government and Defense sector.

LAB MANAGEMENT SYSTEM

ISO 17025 standard provides best management and technical guidance for a Testing and/or Calibration Lab. The standard provides a lab with international recognition and its effective implementation ensures quality assurance of its activities which eventually leads to higher trust of clients and customers alike. The standard is recommended for Labs belonging to the following sectors:

Chemical, Paint, Textile, Testing, Calibration Labs, Metrological Labs, Pharmaceutical, Food & Beverages and Engineering Sector

About this Training:

This course is designed to provide knowledge and awareness to all Inspection, Research, Testing and Calibration Laboratories including Government Department Labs, Hospital Labs and other Industrial Labs regarding Laboratory Accreditation that conform to International Requirements. This will cover both management and technical aspects of Laboratory Management and Good Laboratory Practices.

Key Contents:

- Lab accreditation process
- Some Commons Issues in Labs
- ISO 17025 requirements (Management & Technical)
- Estimation of Uncertainty
- Equipment Management
- Testing Policies & Procedures
- Complaint Handling
- Sampling Methodology
- Proficiency Testing / Inter Lab Comparison
- Management & Technical System Documentation
- System of Identification & Traceability
- Reporting of Test Results

What is NEW in 2017 version?

- The scope has been revised to cover testing , calibration and sampling associated with subsequent calibration and testing.
- The process approach now matches that of newer standards such as ISO 9001 (Quality Management), ISO 15189 (Quality of Medical Laboratories).
- The standard has now a stronger focus on information technologies and incorporates the use of computer systems, electronic records and the production of electronic results and reports.
- A new chapter introduces the concept of risk-based thinking.
